STORAGE FEES

Allocated Gold	1.00%
Allocated Silver	1.90%
Allocated Platinum	1.00%
Pool Allocated Silver	0.95%

- Storage fees to be charged quarterly in advance.
- Storage fees will be invoiced 6 monthly in arrears on 30 June and 31 December.
- Based on London fix price at the beginning of each quarter.
- When a client buys metal, storage will be charged from the value date to end of the quarter using the London fix price at the beginning of the quarter.
- When a client sells metal, storage will be refunded from the value date of the trade to end of the quarter using the London fix price at the beginning of the quarter.
- When a client buys or sells at the end of a quarter for value into the next quarter, the price used will be the deal price not the London fix price.
- Clients that collect metal within three months from the date of purchase will incur a three month storage charge.
- If a client is withdrawing all funds from an account which has no metal left in it, then amounts due from as yet unbilled storage fees or overdue storage fees or deals will be deducted from any payments due to the client.

Refer to Appendix A for examples.

PRODUCT FABRICATION FEES

Fabrication fees are not refundable.

POOL ALLOCATED PRODUCT

10 cents per ounce.

Pool Allocated attracts a fabrication fee equivalent to 50% of the current applicable bar. Should a client choose to take physical delivery at any time, the balance will be payable, calculated on the current applicable bar premium at that time. Unallocated metal does not attract a fabrication fee.

Pool Allocated can be converted to physical 1000 ounce silver bars on payment of the balance of the fabrication fee, or to other products at an additional full fabrication fee.
